

# Sprayberry High School

## Dual Enrollment Reminders

1. Ensure you are taking or have completed **Algebra II (Advanced Algebra) and Literature II or equivalent at Sprayberry**. Literature II (instead of American Literature) is an update starting 02.05.2025. Students no longer need to take American Literature to participate in Dual Enrollment.
2. You must be passing ALL your current high school classes, and you must attend school regularly. Students with chronic absences will NOT be allowed to participate in Dual Enrollment.
3. You must have transportation to and from the college.
4. You cannot stay on Sprayberry's campus while taking a Dual Enrollment class. Part-time DE students will only present to SHS before their SHS class starts. You are not required to check in or check out with attendance.
5. DE students are responsible for staying informed about school events. You must check Sprayberry's website regularly and pay attention to the e-blasts sent out. Seniors must ensure they do not miss information about homecoming, prom, pictures, graduation, etc.
6. Research the college requirements/options and consider logistics, implications, etc.
7. You are responsible for all deadlines and submitting your paperwork without being prompted. Please go to the "Deadline Dates for DE" and add these dates to your calendar. If you miss a deadline, your application will be deleted. No exceptions will be made to this policy.
8. You are responsible for keeping your parents in the loop about DE information and deadlines.
9. Make sure you have the required scores to attend the college of interest. It is the student's responsibility to ensure they meet the minimum requirements. You can only apply if you meet the minimum requirements. Please note that you must submit your SAT/PSAT or ACT scores to participate in DE at KSU with a core GPA of less than 3.2. Please review GA Tech's average scores to see if you qualify to apply for GA Tech Distance Math.
10. If you have questions about your college application or where you are in the process, you must contact the college directly. The high school does not have access to your college information.
